Dear parents and carers

We are Valeu Brazilian Arts! Founded in 2018, we as an organisation are committed to providing highly dynamic and creatively expressive workshops in Brazilian samba drumming and the carnival arts. Our sole aim is to produce programs of the highest quality for the primary benefit of children, young adults and wider communities!

Our organisation is very excited to be relocating to your area in which Dormansland Primary has been selected for our initial pilot project! We would like to offer all children in years 3 and above with the unique opportunity to take part in workshops as part of the afterschool clubs program!

Club details:

Mondays after school, 3.15-4.15

£55 for the 10 week term*

From Mon 8th Jan 24

All instruments and equipment provided

*half price for children with free school meals

Samba drumming is fast, loud and energetic, and demands a significant level of team work! Since the project began over 5 years ago we have witnessed children developing skills from primary through to secondary age, taking their musicianship forward to continue instrumental and vocal development into early adulthood. A number of students have even gone onto study at institutions such as the well known Brit School (Croydon), or even to become music producers in their own right. Our method of teaching has also been known to have a huge impact on developing coordination and fine motor skills in young people, as well as building general life skills and social confidence.

Looking forward to getting the groove going in the New Year!

Your workshop leader

Lauren Baker
Artistic Director
